

# The Enrichment Alliance of Virginia Fund calls for proposals to support children with behavioral challenges in after school and summer programs.

Surveys conducted by our committee, as well as by youth development leaders in our community, indicate an urgent need for evidenced-based strategies to support children experiencing significant behavioral challenges in out-of-school time programs.

The Enrichment Alliance of Virginia, a committee advised fund of the Charlottesville Area Community Foundation, is accepting proposals for funding of up to \$2500.00 for trainings and other services to strengthen out-of-school time programs' abilities to support positive behavior and safely de-escalate disruptive behaviors.

Applicants must be qualified tax-exempt organizations serving children and youth in Charlottesville, Albemarle, and adjacent counties.

## Initial Approach

Please write to the Enrichment Alliance of Virginia Committee Advised Fund, care of [madunn5642@gmail.com](mailto:madunn5642@gmail.com).

## Proposals Should

- Discuss how your organization could benefit from this opportunity;
- Describe the population you serve, including how many young people you expect to be impacted;
- Discuss the credentials of any trainers or consultants you will be employing, as well as how you determined that the support strategies this grant would fund are evidence-based;
- Include a project budget;
- Include a brief statement on how you will evaluate the impact of training or services for which you are requesting funds;
- Include documentation of tax exemption status.

We may reach out to you for more information as we review applications. We also welcome your questions.

## Follow-up

If your proposal is funded, we request a written report, including evaluation feedback.

## Timeline

Proposals are Due on **Oct 15, 2023**. Decisions will be announced on or before **December 1, 2023**. A follow-up report is due by **January 31, 2025** or three months after project completion, whichever comes first.

We thank you for your interest in supporting children with behavioral challenges in your programs and look forward to reading your proposals.
